Rapid Enterprise Development

RED For Short

About Us

Our vision is to inspire and support people with lived experience of a disability, their families, friends and partner organisations to engage in the world of enterprise.

Our mission is to accompany people with a lived experience of disability on a journey to turn dreams, hobbies and ideas into viable enterprises. This is achieved by creating awareness of enterprise opportunities, providing information, support, guidance, business planning and development resources

The RED Academy

RED is a complete web-based and 'hands on' service. Designed to assist people with disability, their families and friends, and their support organisations to engage in the world of enterprise. View the RED Academy journey below.

Enterprise Support Worker Training

This training offer helps disability support workers to learn more about how enterprise and disability can go hand in hand. The workshop draws on some key RED modules, and covers:

**How to spot or
generate
opportunities**

**Case Studies
of our RED
Academy
Clients**

**How to do a
'back of a beer
mat' financial
break-even**

**The Relationship
between
Entrepreneurship
& Disability**

RED Club

The RED Club is a space to connect with likeminded existing and emerging entrepreneurs, other RED Academy and RED Store Members. It's a space to converse and learn from each other, as well as learning from a few experts along the way. Each month we will post exclusive RED Talks from inspirational members of the community and ask you what you need help with and release specialised tutorials. We have a RED Club Facebook group you can join today.
